

Lord of the Abs - A Core Cross-Training Program

Everybody wants a strong core and 6-pack abs. If your abs look good, guaranteed, the rest of your body will look great! My **Lord of the Abs** series is a first-ever Core Cross-Training program designed specifically to target this problem area. You will improve your abdominal strength, range of motion, stability and overall appearance. This is your path to a strong core and your own 6-pack abs!

There are 5 workouts on 5 DVDs. Each of these workouts target the abs in different ways with whole new sets of exercises that when combined work to maximize results. But the real beauty is that the **Lord of the Abs** series will give you more than just 6-pack abs. ***It will also strengthen your entire body while blasting calories and burning unwanted fat!***

I have put together a suggested weekly workout schedule for the **Lord of the Abs** series. For maximum results I recommend doing one workout per day finishing a complete cycle within a one-week period. You can choose to do the workouts 5 days in a row or opt to take a rest day after the 2nd or 3rd workout, and then another rest day after completing the 5th workout in the series.

***In one day you will feel a difference!
In 5 days you will see a difference!***

I have also put together 2 additional suggested workout schedules:

A suggested schedule that combines **Lord of the Abs** with the **Ultimate Body Sculpt** series

A suggested schedule that combines **Lord of the Abs** with **The Quick Fit System**

See page 2 for schedules
